results/round_001/agents (100 agents)

Fig. 1 · Overview of All Agents

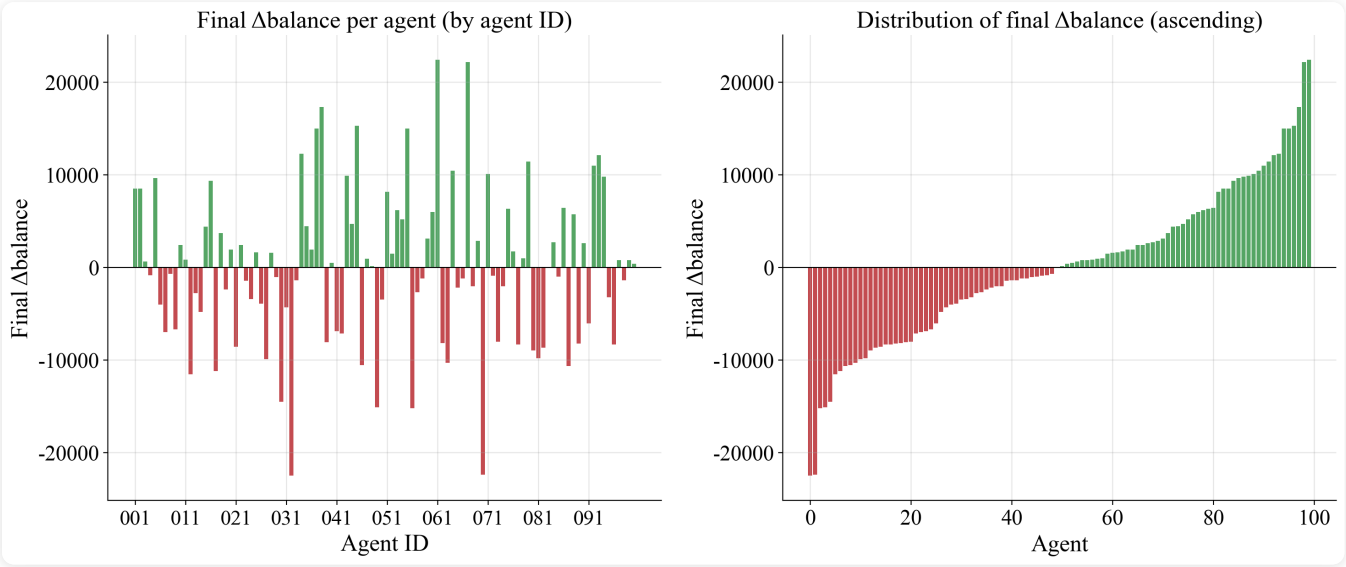

Fig. 2 · Balance Distribution of All Agents by Global Transaction Order

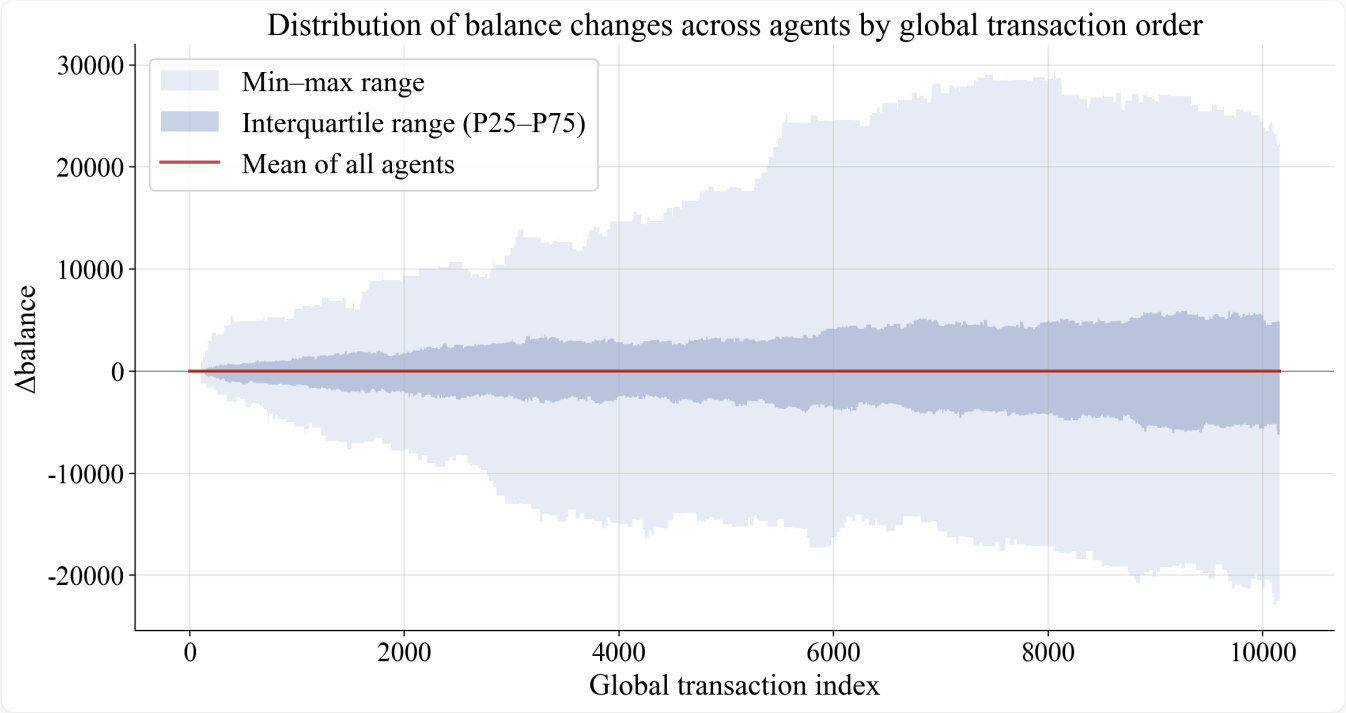

Fig. 3 · Balance Change Aligned by Normalized Transaction Progress

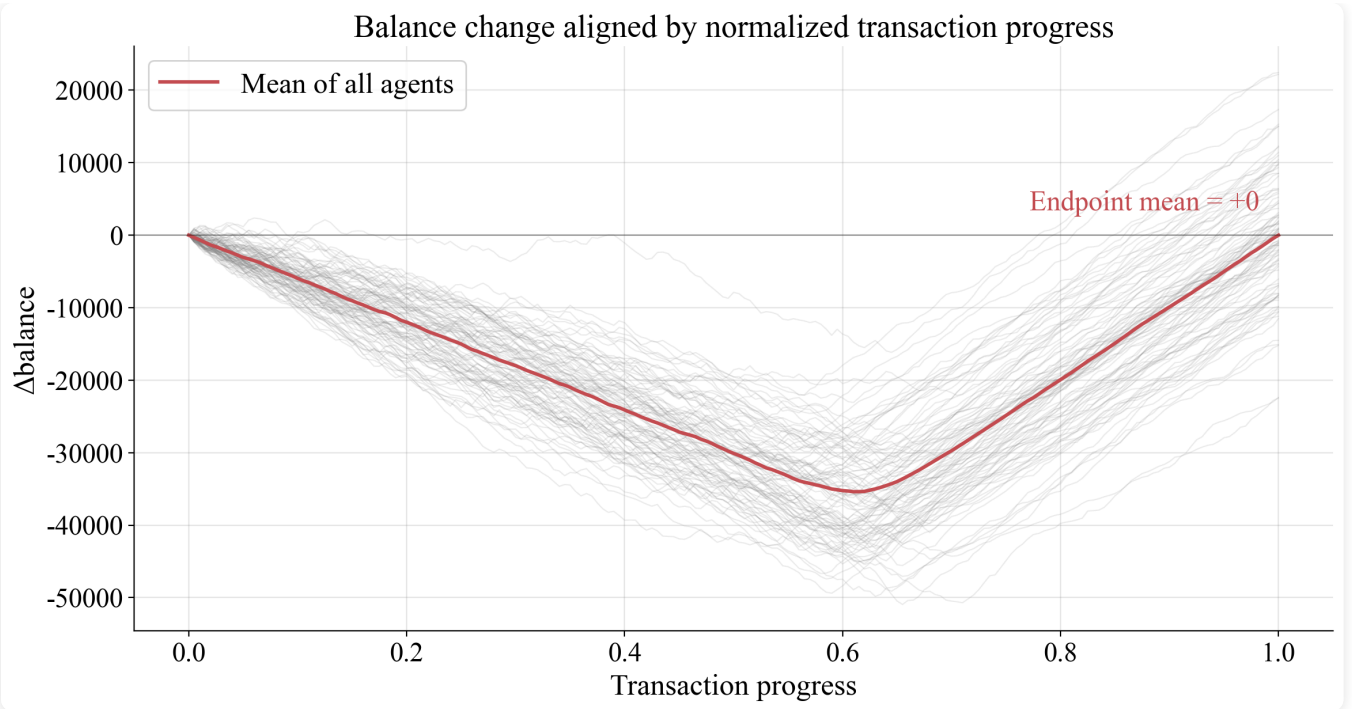

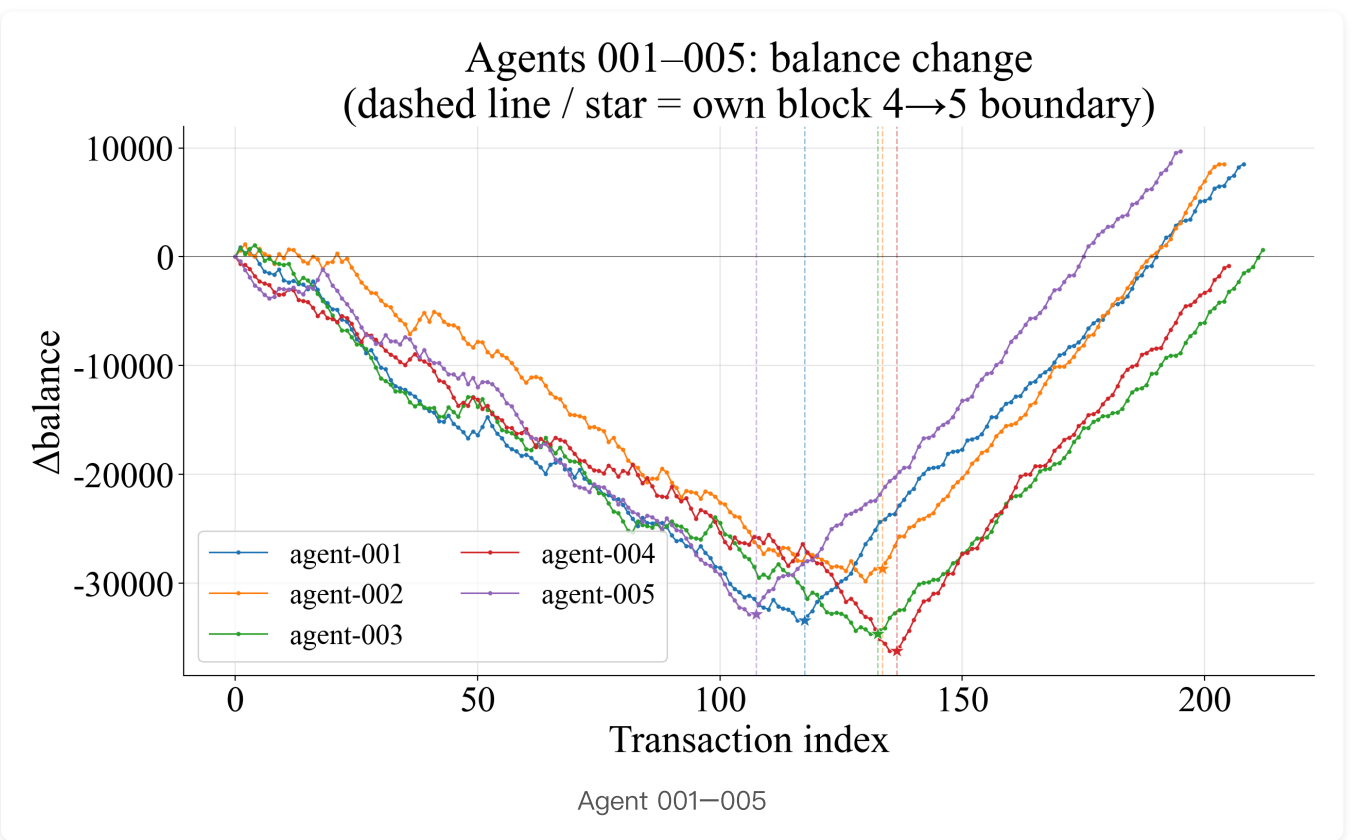

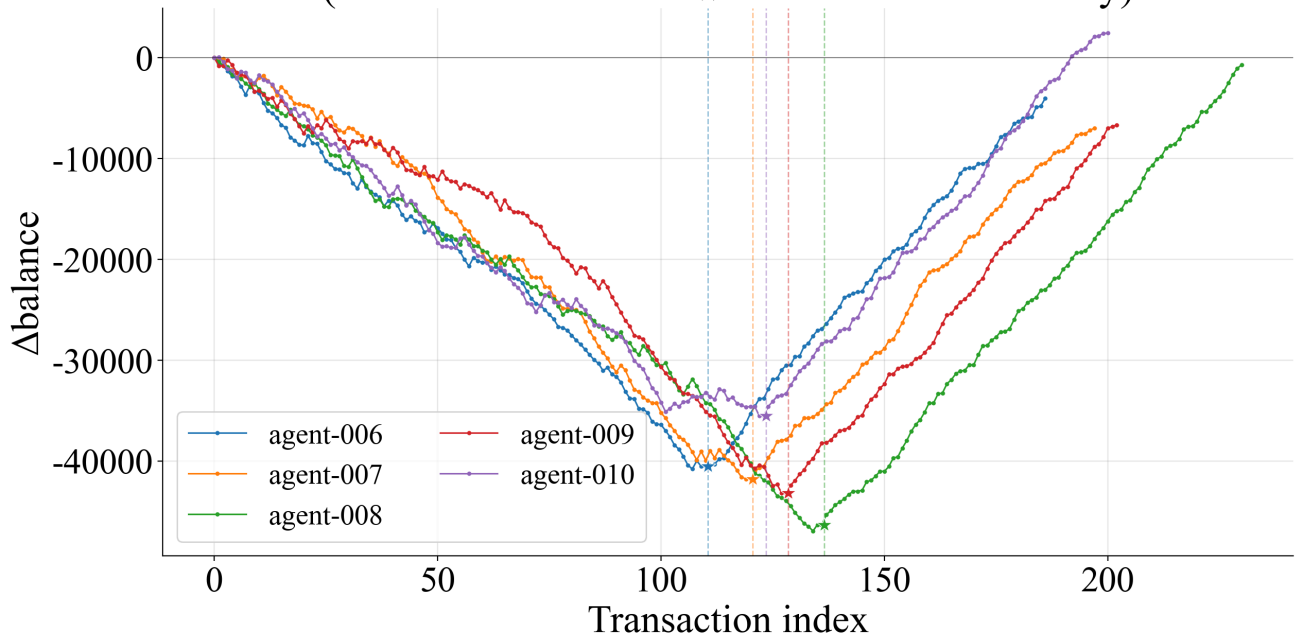

Fig. 4 · Grouped Balance Trajectories (5 Agents per Subfig)

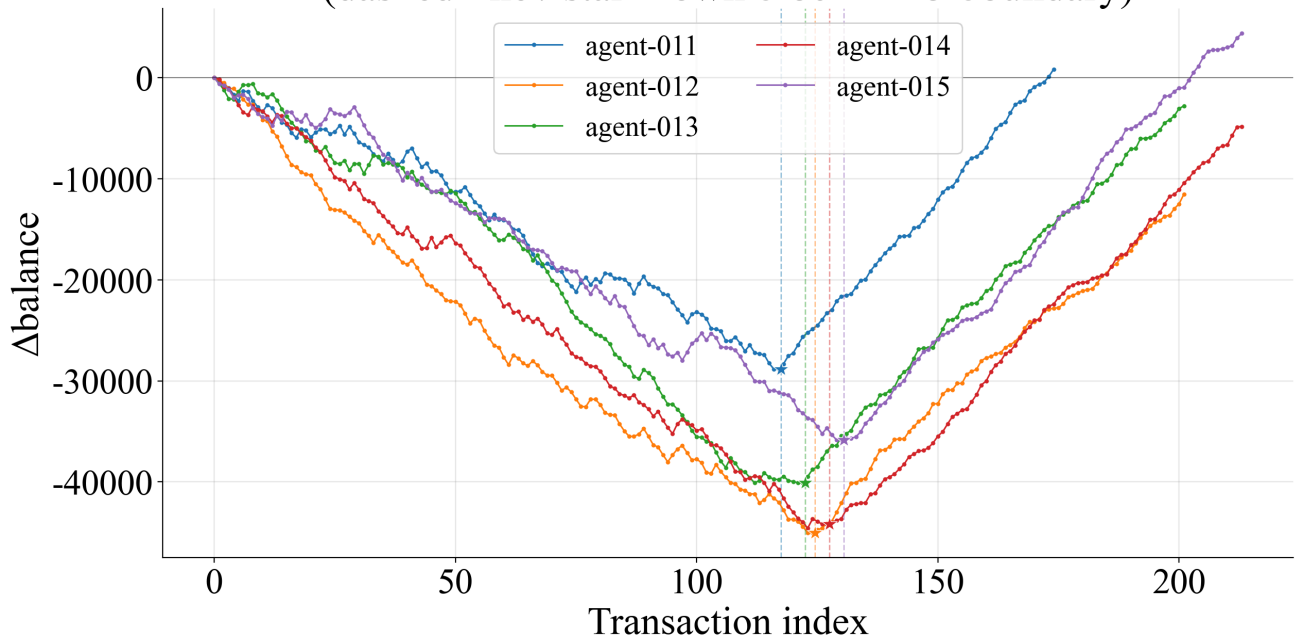

Agents 006–010: balance change
(dashed line / star = own block 4→5 boundary)

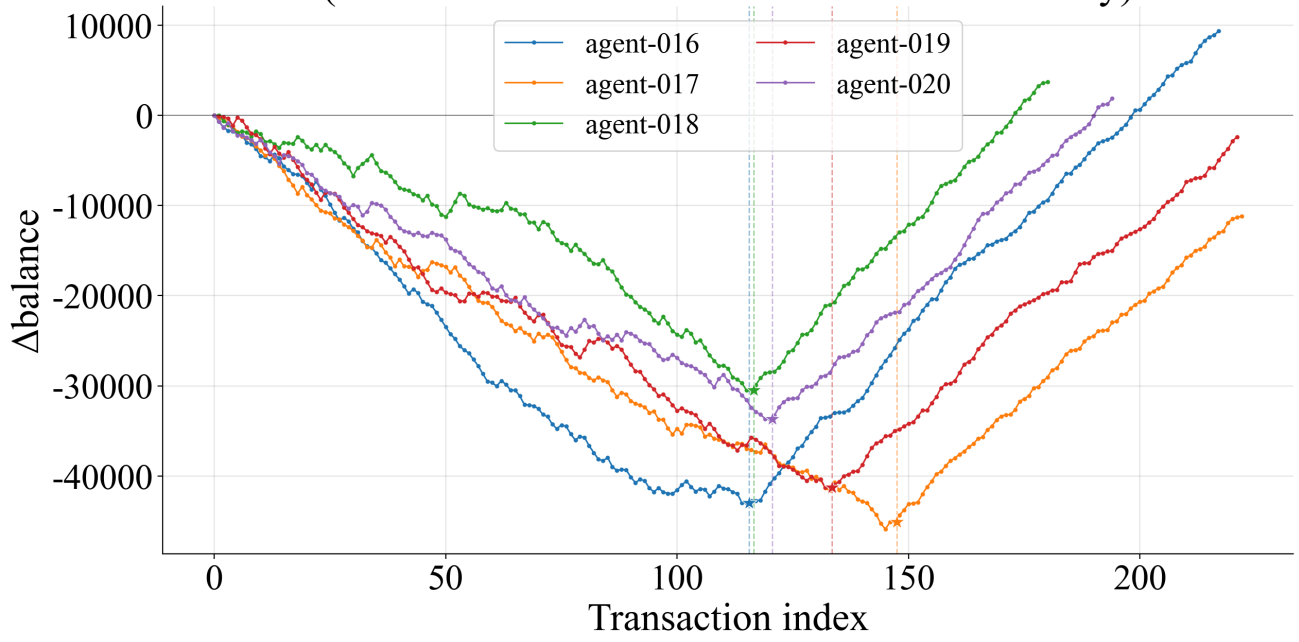

Agent 006–010

Agents 011–015: balance change
(dashed line / star = own block 4→5 boundary)

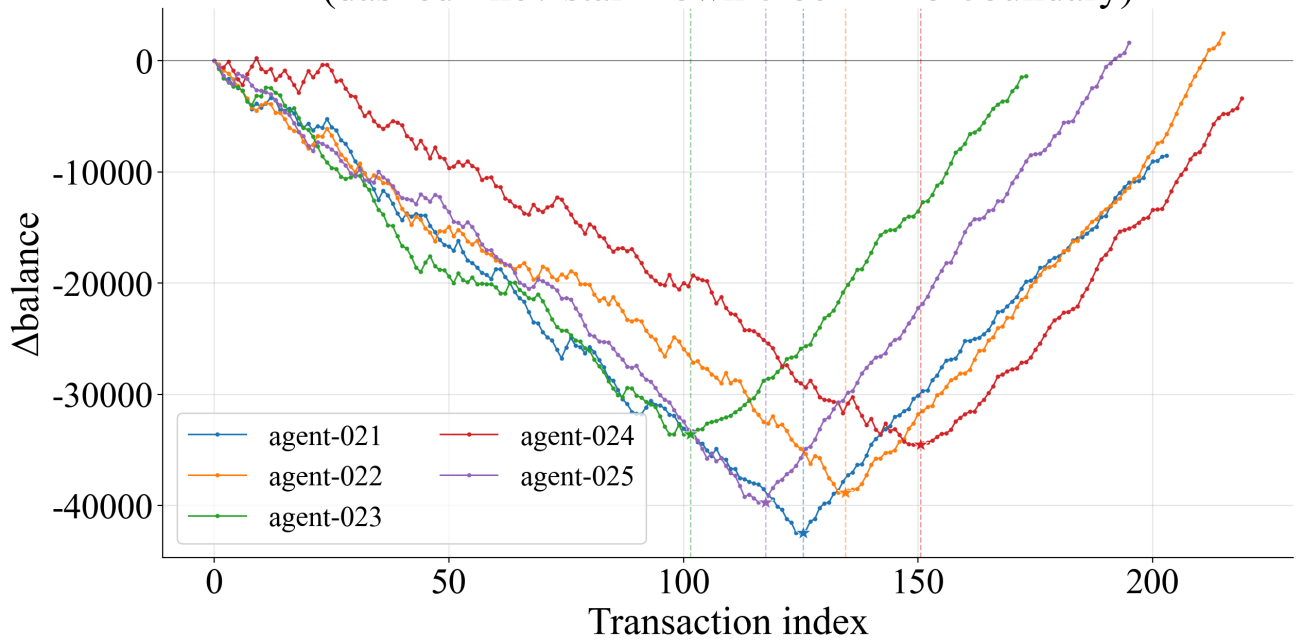

Agent 011–015

Agents 016–020: balance change
(dashed line / star = own block 4→5 boundary)

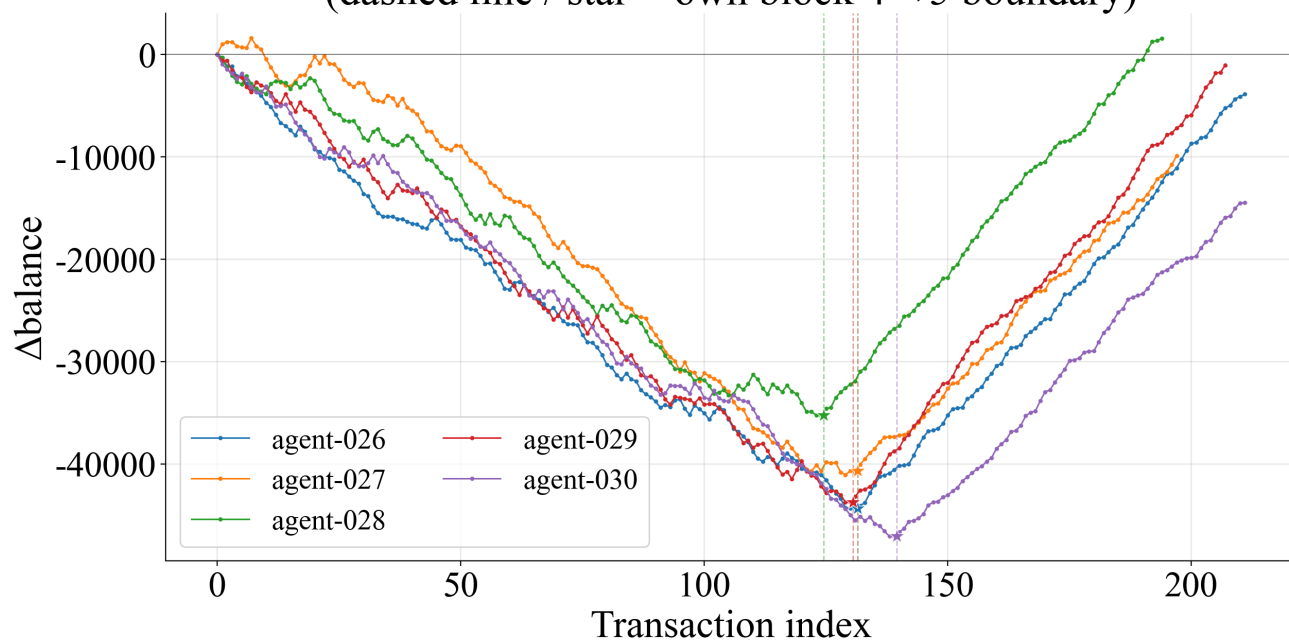

Agent 016–020

Agents 021–025: balance change
(dashed line / star = own block 4→5 boundary)

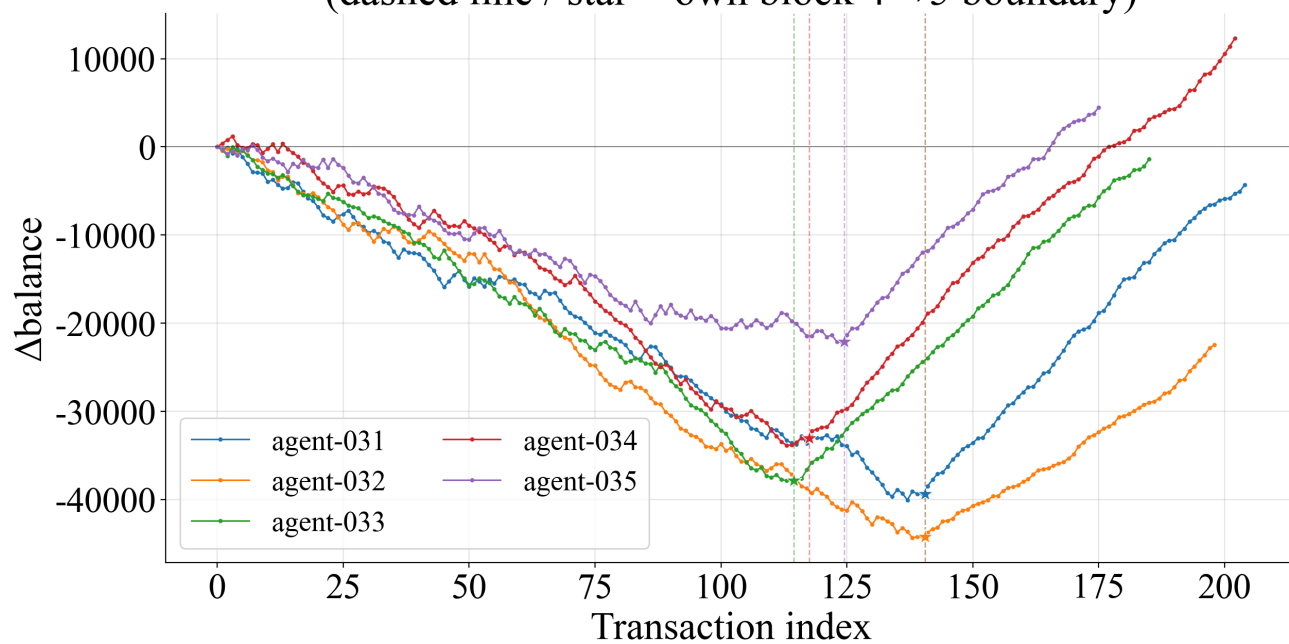

Agent 021–025

Agents 026–030: balance change
(dashed line / star = own block 4→5 boundary)

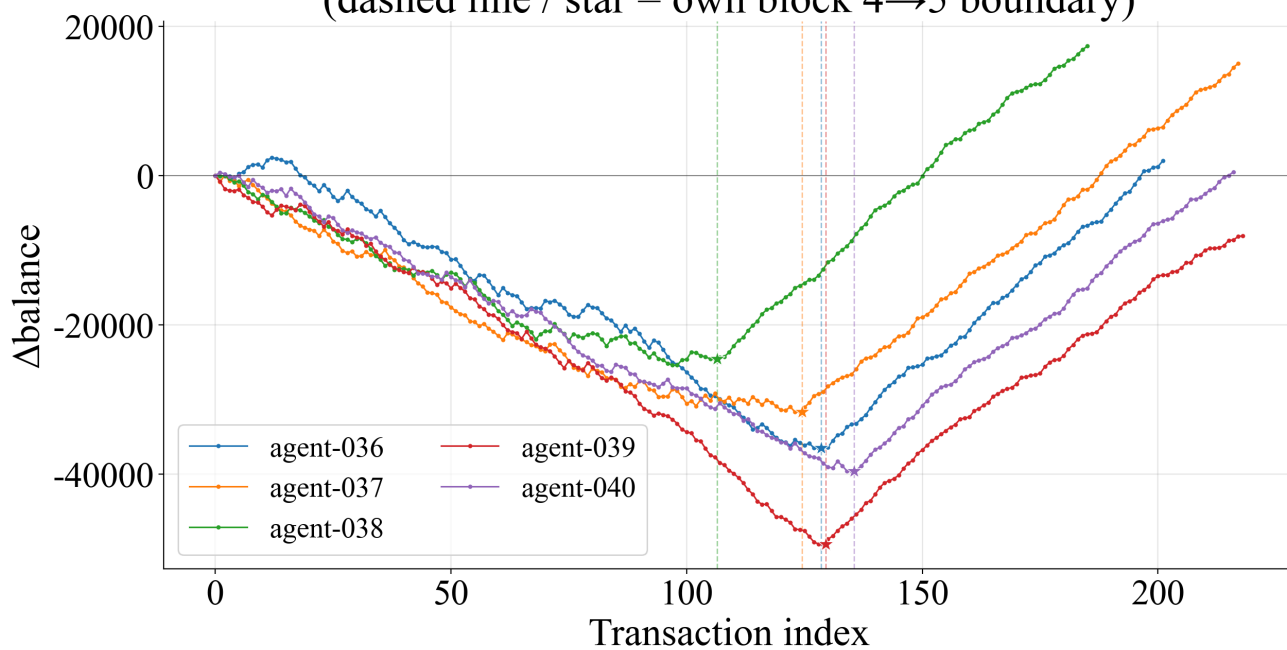

Agent 026–030

Agents 031–035: balance change
(dashed line / star = own block 4→5 boundary)

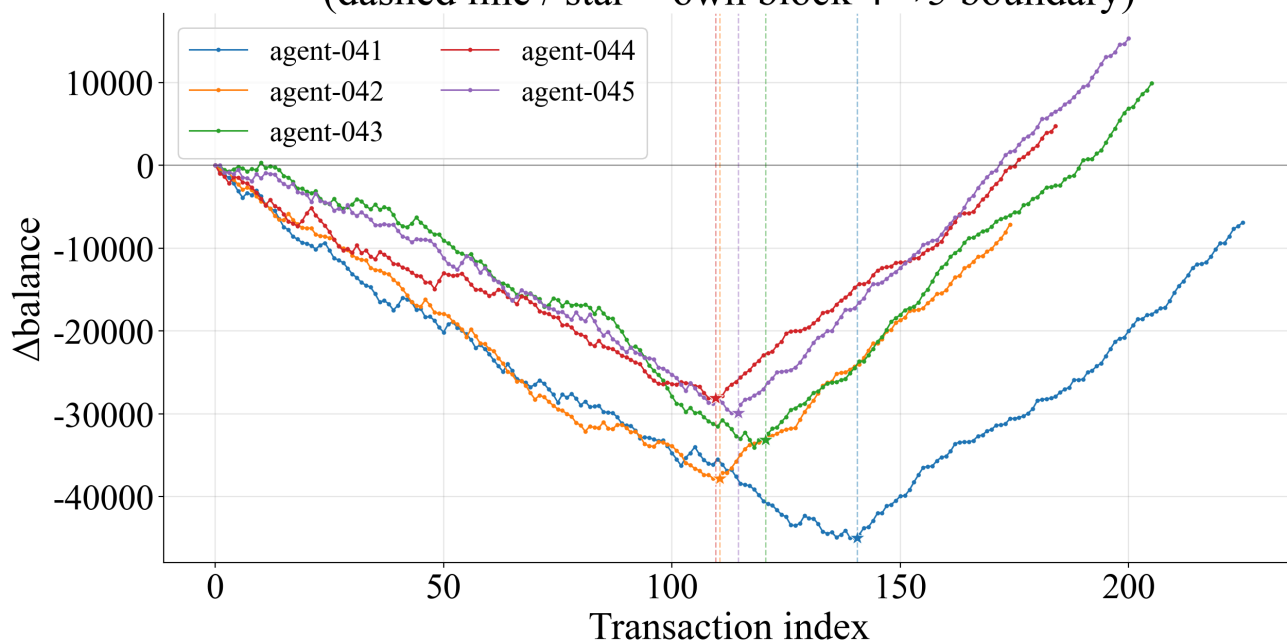

Agent 031–035

Agents 036–040: balance change
(dashed line / star = own block 4→5 boundary)

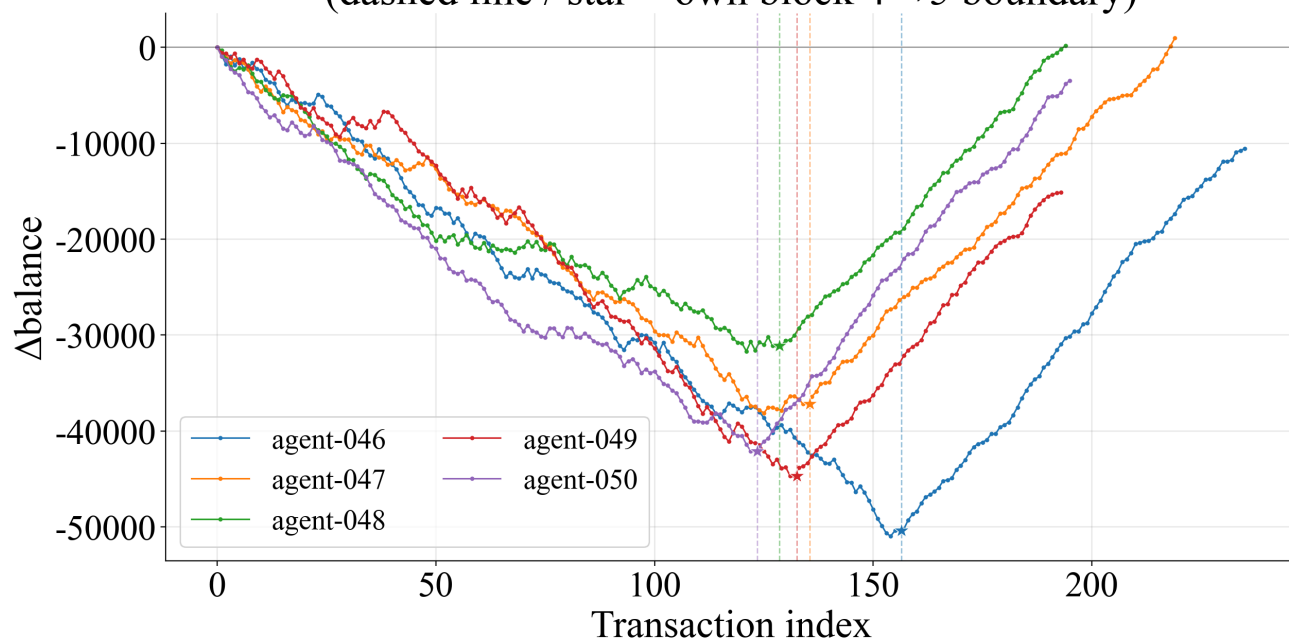

Agent 036–040

Agents 041–045: balance change
(dashed line / star = own block 4→5 boundary)

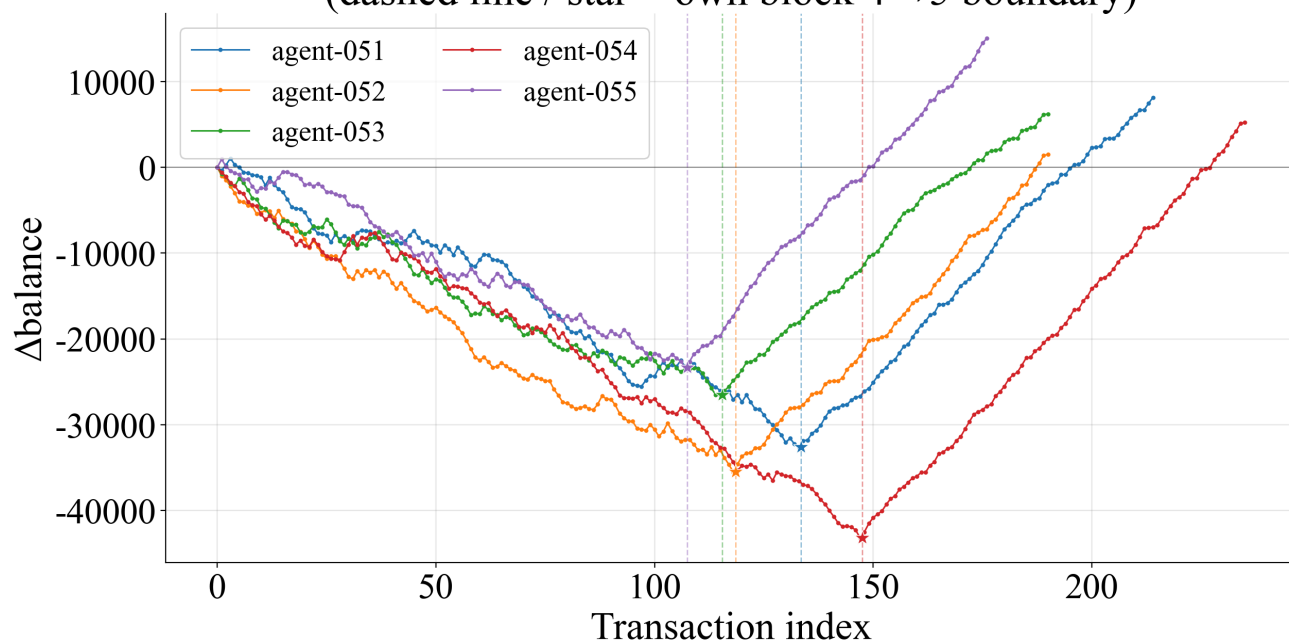

Agent 041–045

Agents 046–050: balance change
(dashed line / star = own block 4→5 boundary)

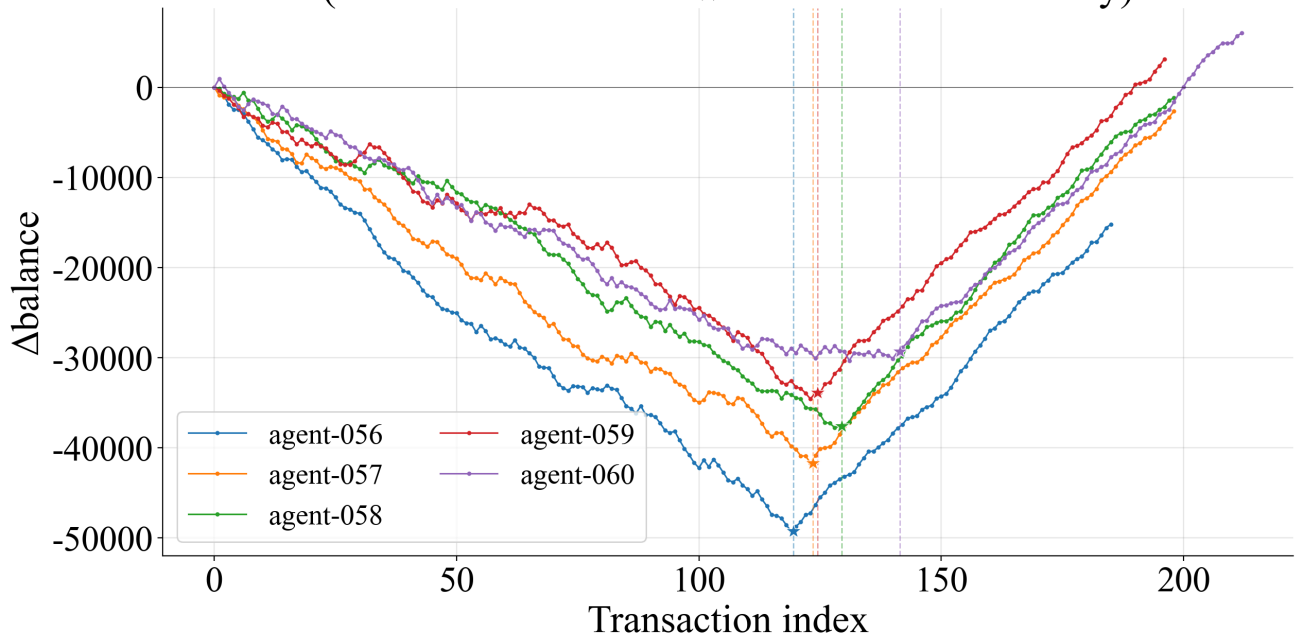

Agent 046–050

Agents 051–055: balance change
(dashed line / star = own block 4→5 boundary)

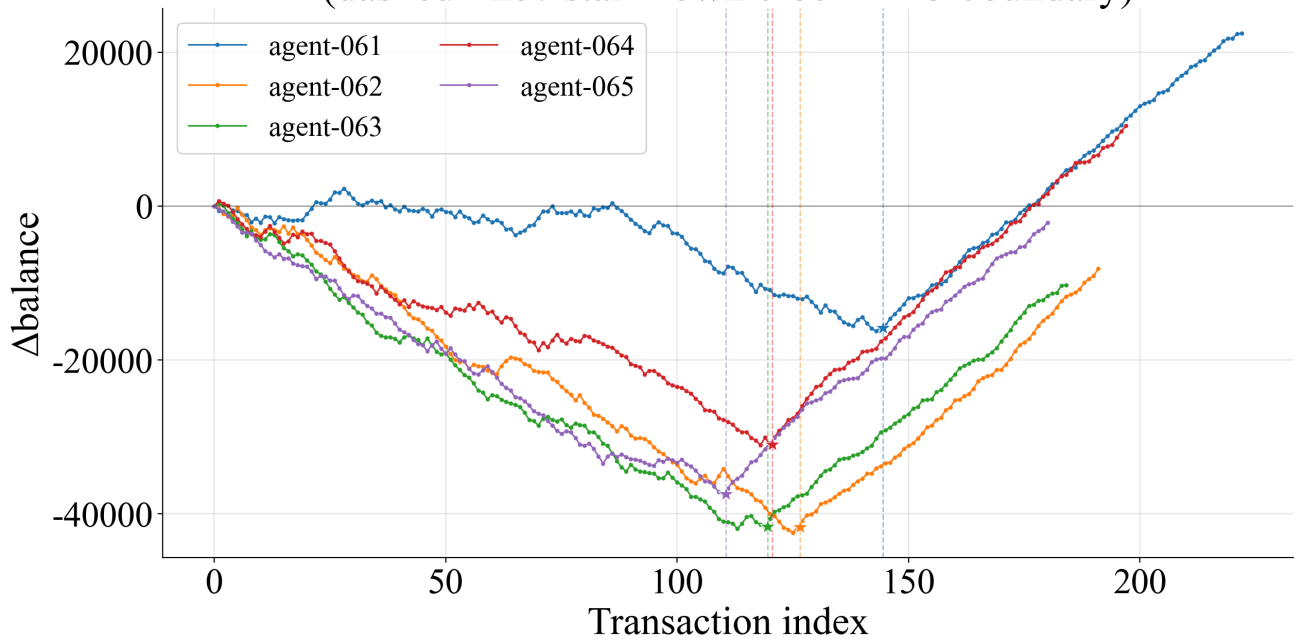

Agent 051–055

Agents 056–060: balance change
(dashed line / star = own block 4→5 boundary)

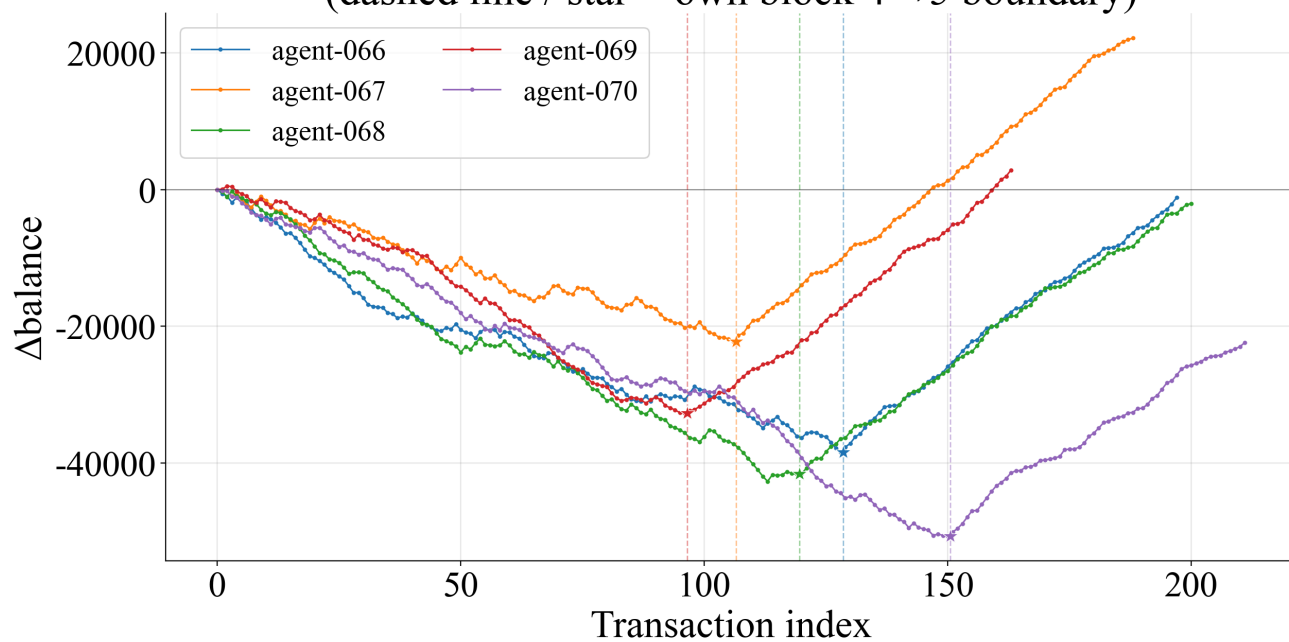

Agent 056–060

Agents 061–065: balance change
(dashed line / star = own block 4→5 boundary)

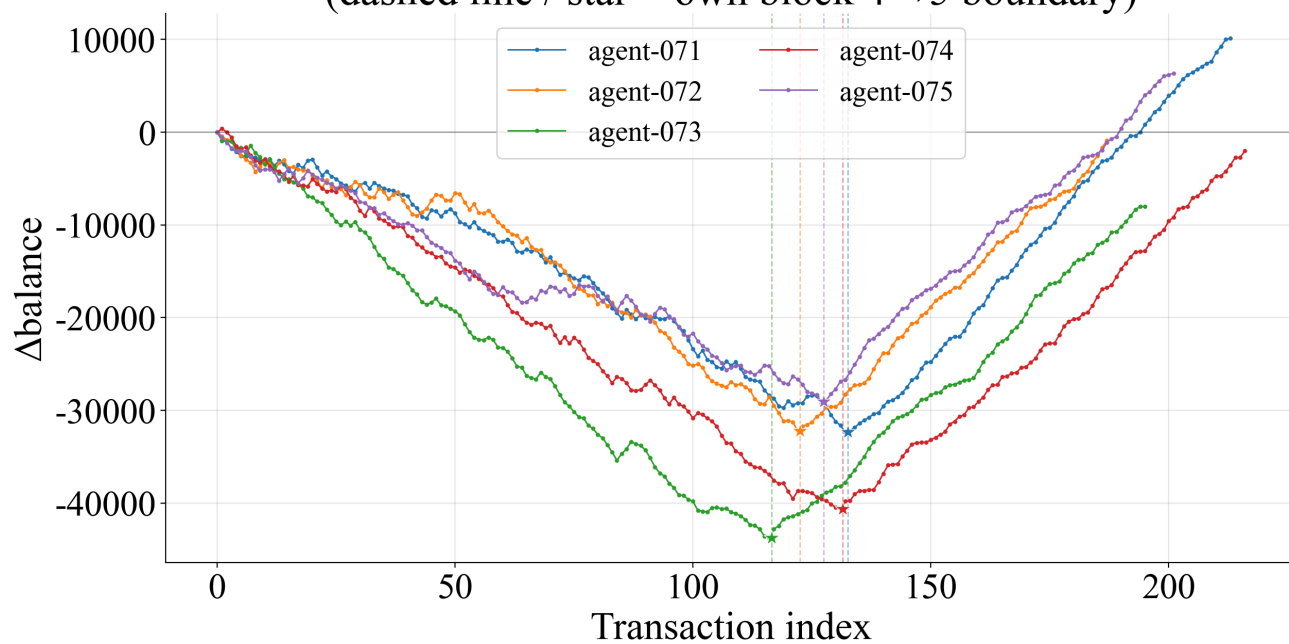

Agent 061–065

Agents 066–070: balance change
(dashed line / star = own block 4→5 boundary)

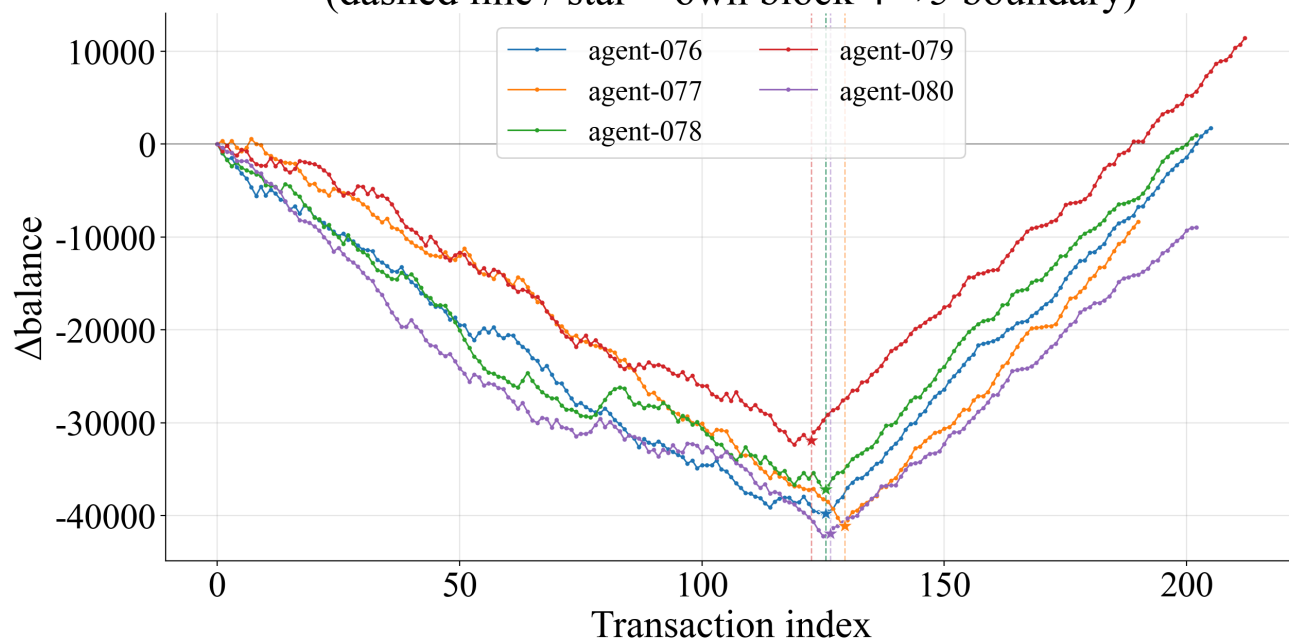

Agent 066–070

Agents 071–075: balance change
(dashed line / star = own block 4→5 boundary)

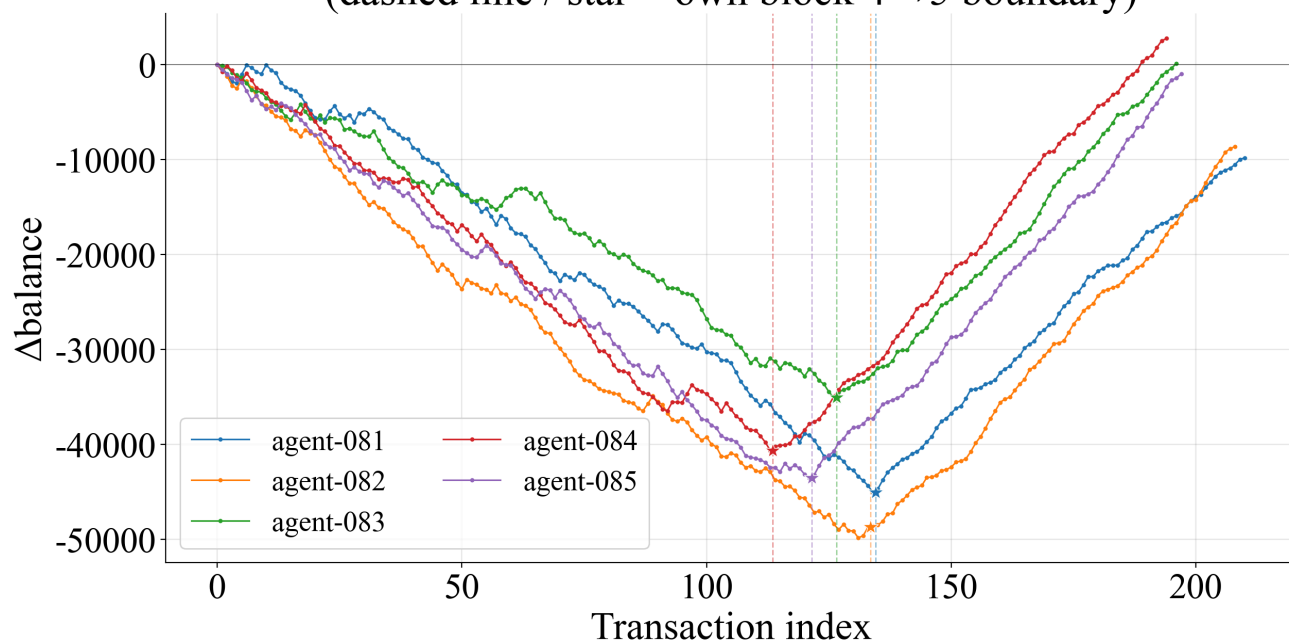

Agent 071–075

Agents 076–080: balance change
(dashed line / star = own block 4→5 boundary)

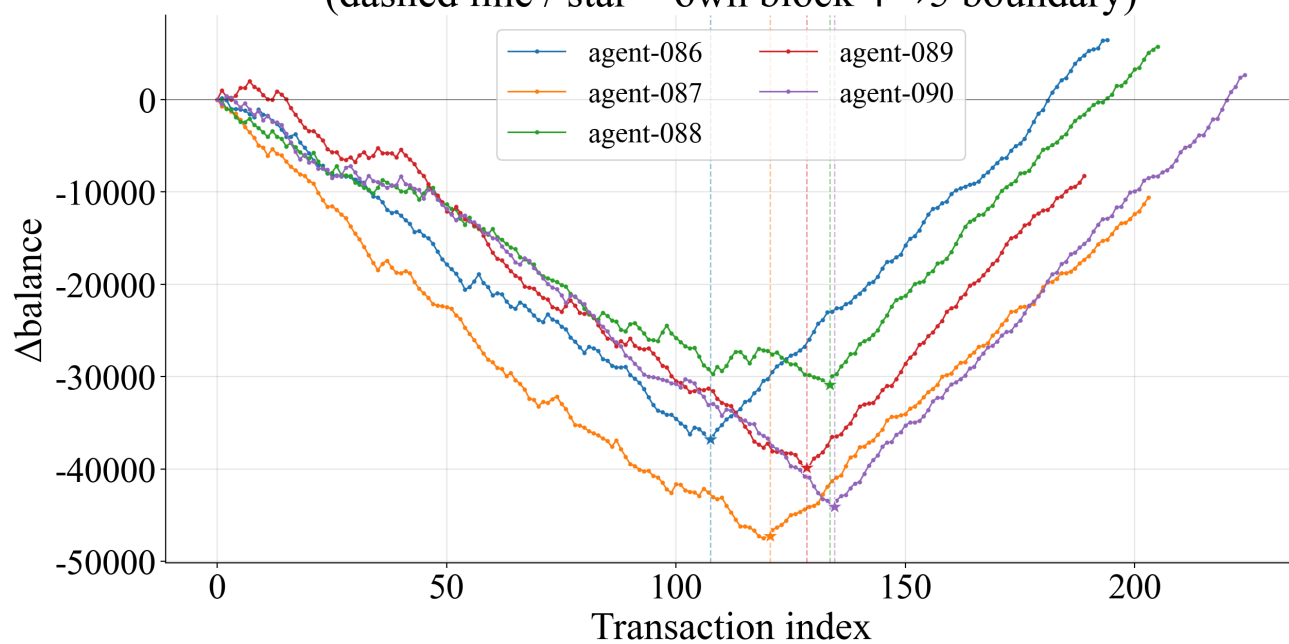

Agent 076–080

Agents 081–085: balance change
(dashed line / star = own block 4→5 boundary)

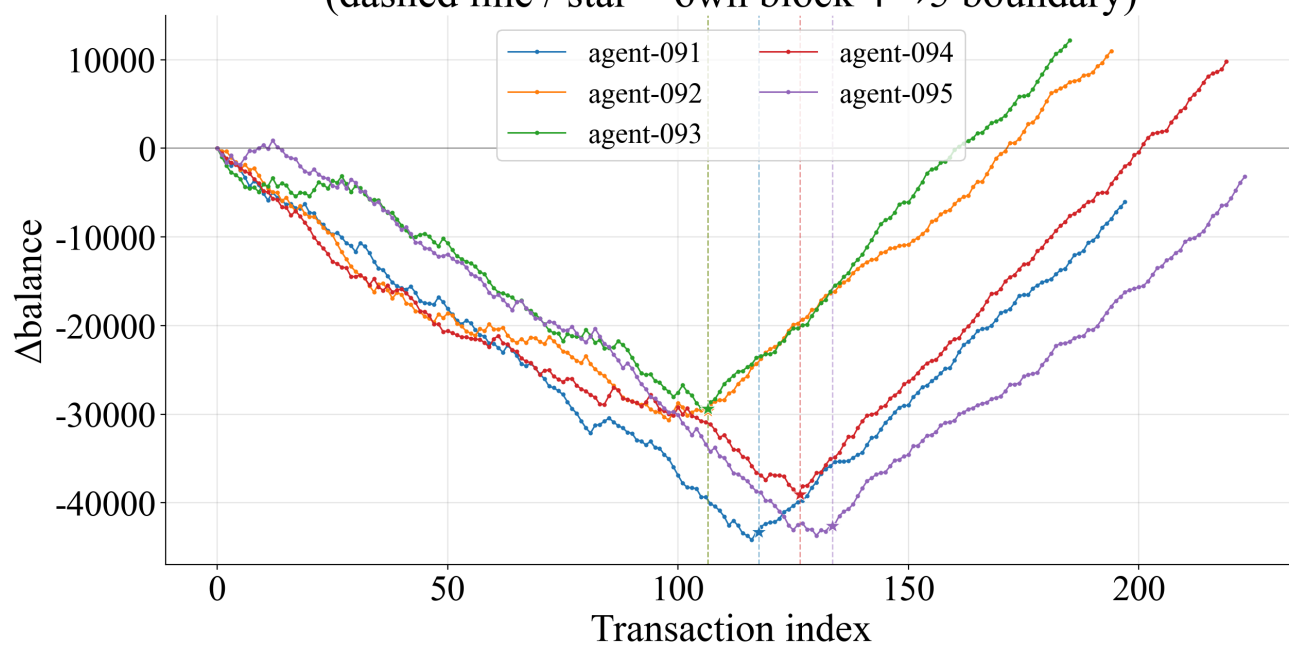

Agent 081–085

Agents 086–090: balance change
(dashed line / star = own block 4→5 boundary)

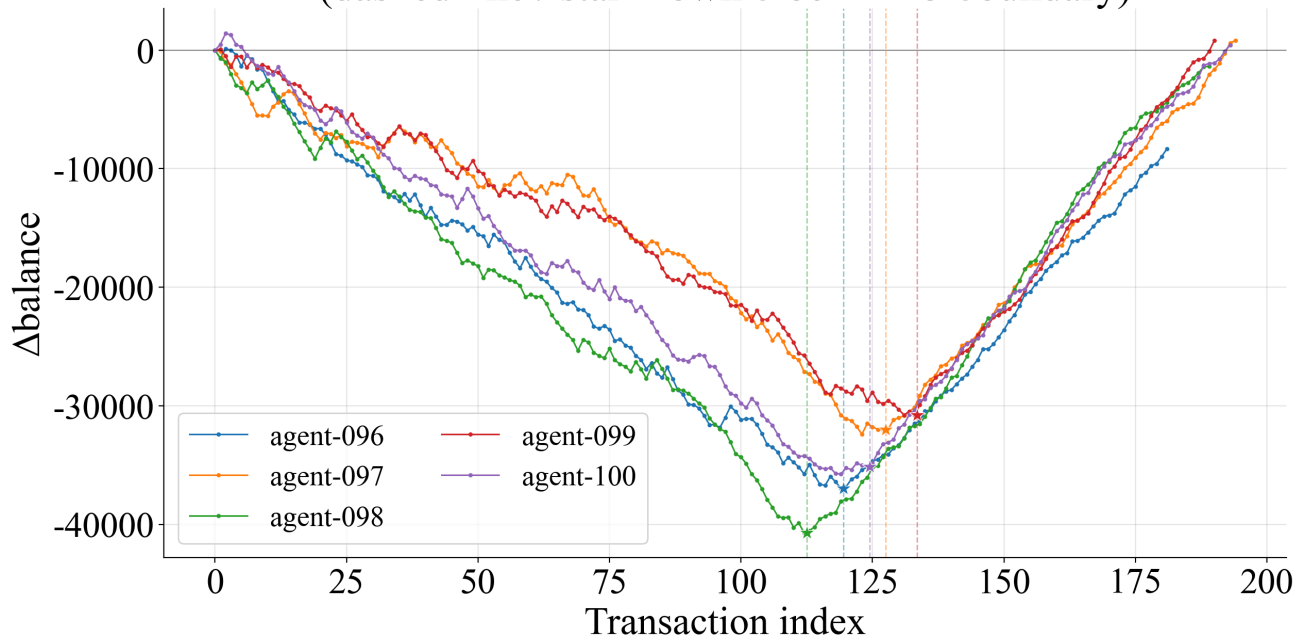

Agent 086–090

Agents 091–095: balance change
(dashed line / star = own block 4→5 boundary)

Agent 091–095

Agents 096–100: balance change
(dashed line / star = own block 4→5 boundary)

Agent 096–100
